

Dear Committee,  
Dear Country Representatives,  
Dear Friends,

The ECCL 2020 is ready for use throughout Europe.  
In Austria, it is carried out exclusively online as a pilot project.

It is possible and, for test purposes, desirable that students from other European countries also take part. The administration of all participants will be taken over by us this year as part of the pilot project.

In future, a test coordinator will be useful or necessary for each country.

You can find the exam in the Austrian Moodle platform "[Latin-Austria-Sodalitas](#)".

To do this, you have to click on the last course area on the start page at the bottom

▷ [Euroclassica/European Symbols/ECCL \(41\)](#) , then on the course [European Certificate for Classics 2020](#) .

You can also reach this page with a [direct link](#).

In both cases you only need to log in as a guest by clicking on [Anmelden als Gast](#) .

You will then get access to the page with the information you need to collect and upload the student data.

If you apply for a teacher account at [peter.glatz@eduhi.at](mailto:peter.glatz@eduhi.at), you will also have access to the original Latin / Greek text including the vocabulary list of the exams.

You will also need this in the case of online participation to upload the student data.

With this in mind, we would be delighted to welcome ECCL participants from other European countries online this year.

Valete quam optime!

Peter Glatz and Andreas Thiel
